PERSONAL PROFILE

I am a Senior Software Engineer and Technical Lead with expertise in PHP Laravel for domain registry services, as well as scalable payment gateway systems. Proficient in Laravel, .NET Core, C#, Angular, and system architecture, I drive development and business growth by delivering secure, high-performance solutions.

WORK EXPERIENCE

Senior Specialist, Saudi Domain Name

CST Communications, Space & Technology Commission | May 2025 – Present

- Contributed to upgrading the legacy Saudi domain name registration platform to PHP 8.2 and Laravel 12, implementing critical system updates and integrating with registry APIs to ensure regulatory compliance.
- Spearhead business development efforts for domain services, identifying key partnerships and expanding service offerings.
- Collaborate with cross-functional teams and external stakeholders to gather requirements, deliver technical demos, and onboard clients

Senior Software Engineer & Acting Technical Lead

Elm Company – Financial Services Department (FinTech) | November 2022 – Feb 2025

- Technical Lead of the Payment Gateway project, managing system architecture, feature development, and integrations.
- Led the integration of payment providers such as Checkout and HyperPay to enable secure and efficient transactions.
- Played a key role in supporting products like Absher, TAMM, Bayan, and Salamah through seamless integration with the Payment Gateway.
- Designed and implemented background jobs using Hangfire and RabbitMQ to enhance system performance and reliability.
- Deployed solutions with .NET Core 6 and Nginx, ensuring scalability and reliability.
- Collaborated with cross-functional teams to maintain clean architecture and deliver efficient features.

Project Manager

Unicode. | April 2022 – August 2022

- Managed projects from scope definition to timelines and milestones with cross-functional teams.
- Applied agile methods to enhance collaboration and optimize outcomes.

EDUCATION

King Saud University

Bachelor of Computer Science

August 2022

Udacity
